九、阅读短文，完成任务。

Real-life Robots

Robots are now a part of our lives. They can do different jobs for people. Let's read and find out more about some interesting robots.

Robot Waiters

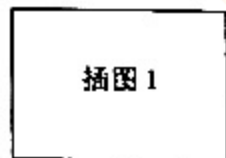

插图 1

In a busy restaurant, waiters and waitresses have to take care of several tables, but they have only two hands! Now, robot waiters can help. These robots can carry food to the tables. People only need to put the food on the table.

Robot Workers

Factories use robots because they can do hard work quickly and they don't usually make mistakes. They can work for a long time and don't get tired.

Fruit-picking Robots

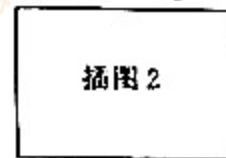

插图 2

Apple-picking robots can help farmers pick apples from trees. These robots use cameras to find ripe (成熟的) apples and pick them gently without hurting them. Robots can collect apples quickly and easily.

Rescue Robots

Some robots can keep people safe. They can go into dangerous places. For example, after an earthquake (地震), these robots can search through broken buildings and send messages to rescue teams. They make saving lives faster and safer.

Surgery Robots

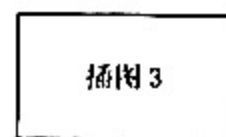

插图 3

In hospitals, these robots can help doctors in surgery. When doctors can't get into tiny (微小的) parts of the body with their hands, special robots can do it easily. They can also help sick people get well faster.

Copycat Robots

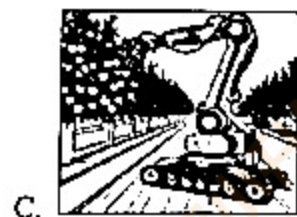

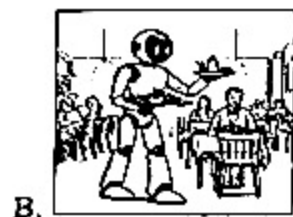

Copycat robots are robots that look like animals. A fish robot can check if water is clean. A bird robot can keep planes safe from birds at the airport. Paro is a robot that looks like a baby seal. It can be a pet to make people feel happy and relaxed.

Robots can do many things to help people. Do you think robots are amazing?
